# CAREER CLUSTERS GUIDE

targeting the career pathways that meet educational and employment goals

The *Career Clusters Guide* was designed around career clusters and related pathways and portrays a common set of knowledge and skills required for success. This process enhances the traditional approach to career and technical education by providing a foundation that prepares individuals for a full range of occupations and career specialties, using a blend of employability knowledge, technical, and academic skills.

**This webinar provides instructions and tips on how to use the guide, as well as the online version.**
