

Join us the 1st and 3rd Tuesday of each month for:

LMI Tuesdays

Join us for a 30-minute discussion of Labor Market Information (LMI) and how to use it in your work. Each session is led by analysts from NC Commerce's Labor and Economic Analysis Division (LEAD) and offers insight and analysis for data driven topics. Attendee questions on the session or any LMI-related topics are encouraged.

Which areas have the highest wages?

Which industries are growing?

How many people in the area are employed?

Who's hiring?

How much does an occupation pay?

Where can I find workers?
