

Disruption Over Destruction: LEAD's Automation Research

Neil Harrington
Strategic Data Analyst
LEAD, NC Commerce

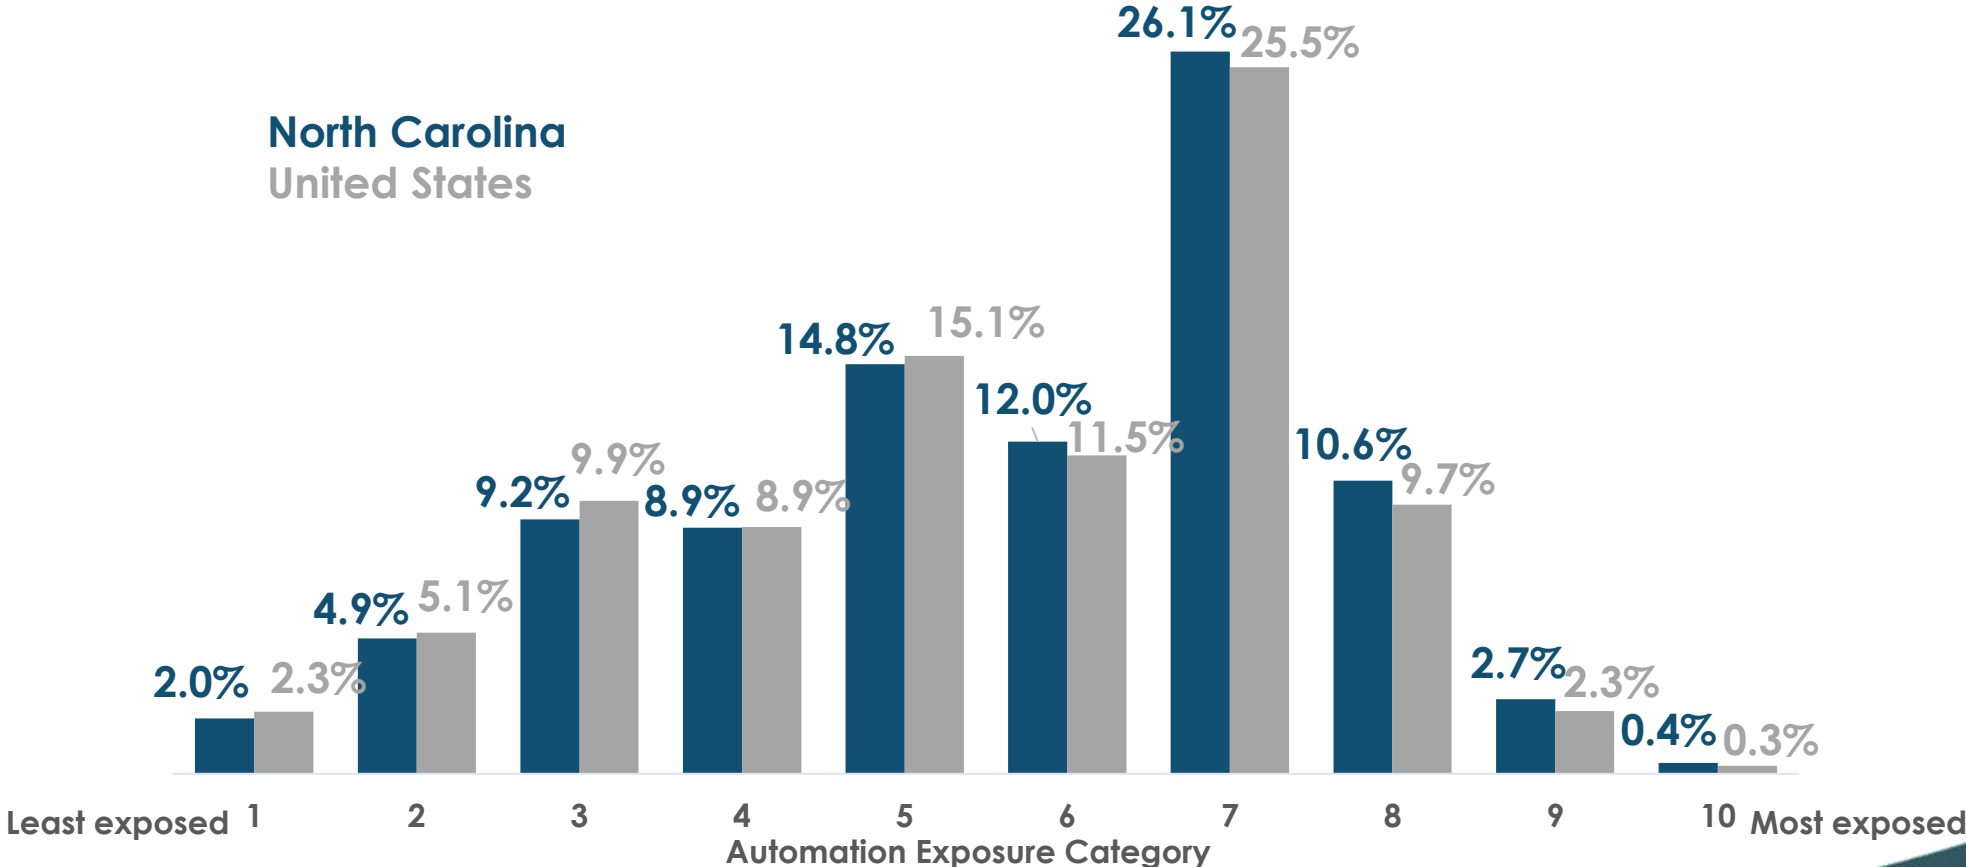

Five things to know from the research

1. North Carolina could face slightly more exposure than US

Share of total employment by automation exposure category

SOURCE: LEAD, NC Commerce
BLS OEWS & LMI Institute data

1. North Carolina could face slightly more exposure than US

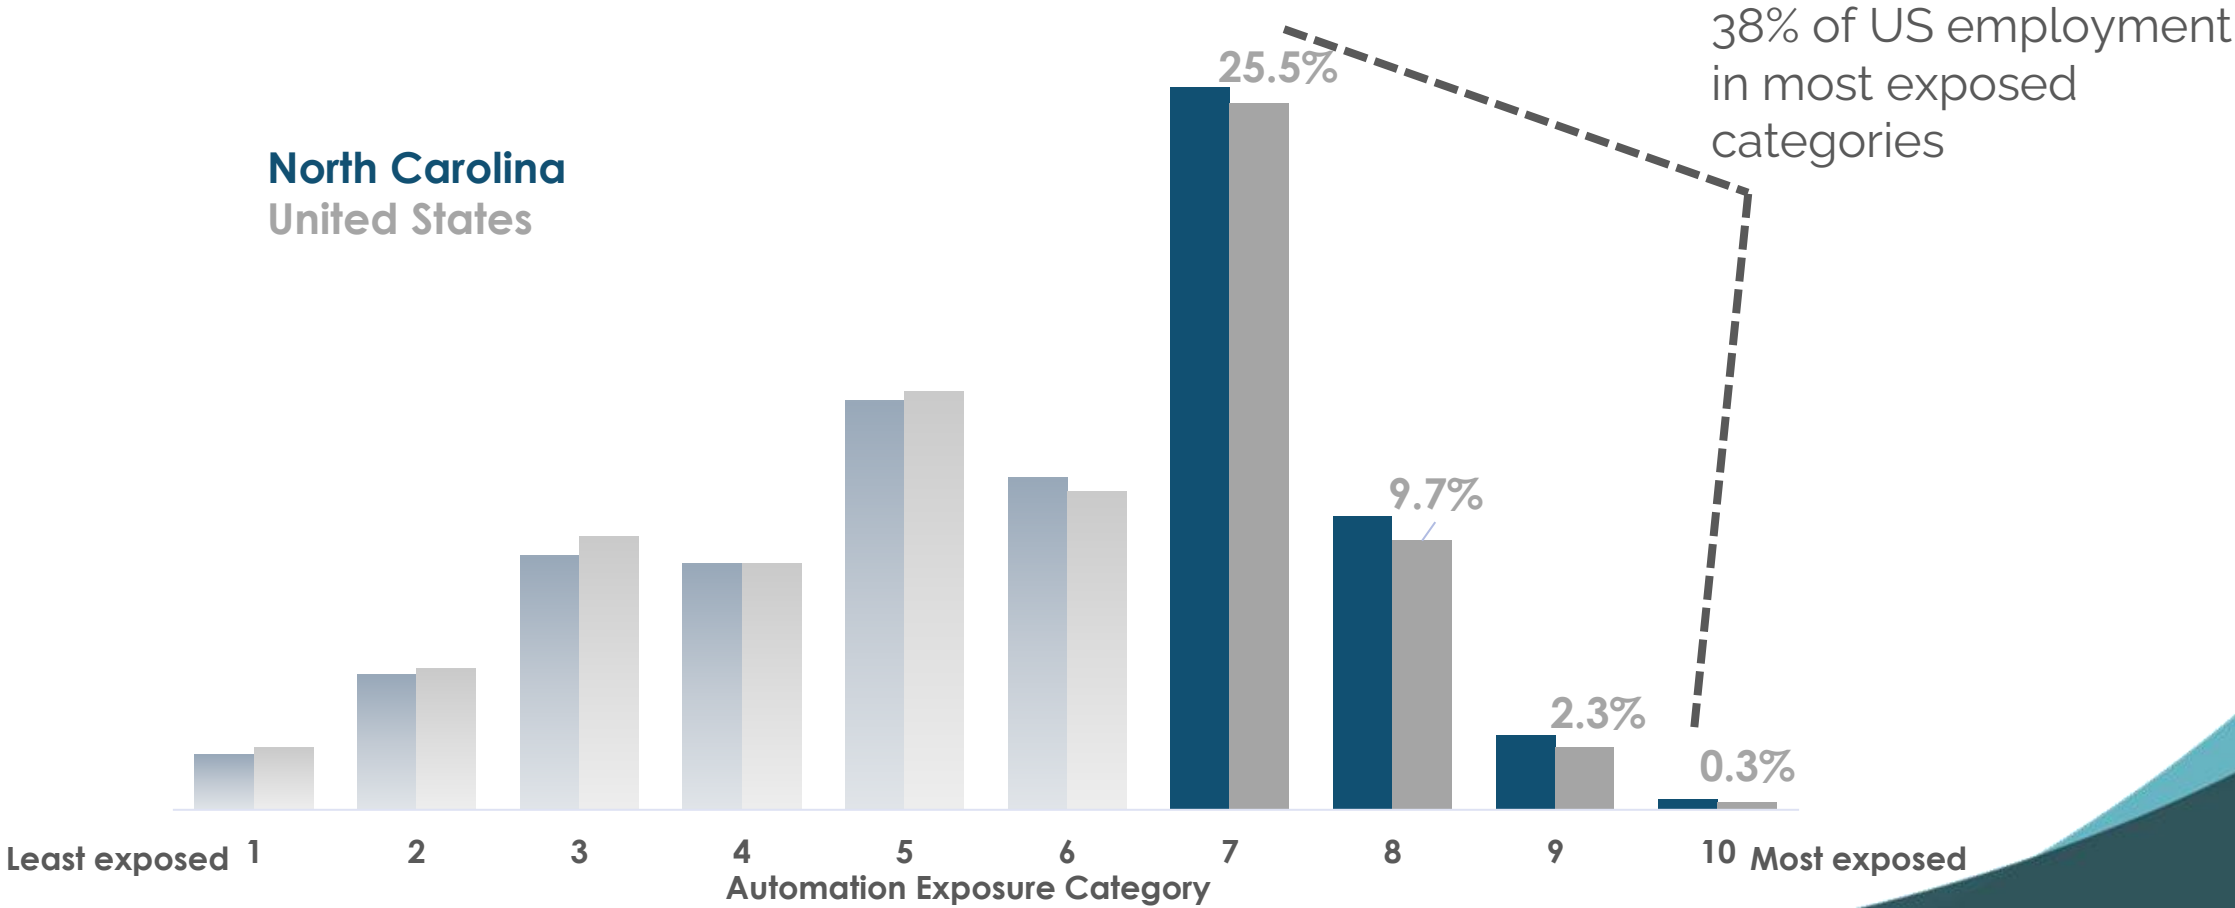

Share of total employment by automation exposure category

BLS OEWS & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

3. Transportation & Warehousing, Manufacturing, and Accommodation and Food Services most exposed to automation

Automation exposure scores at 2-digit NAICS industry sector level

SOURCE: LEAD, NC Commerce
BLS OEWS & LMI Institute data

4a. Which racial/ethnic groups might face more exposure?

Shares of total employment and exposed industry employment by race and ethnicity, 2021 annual average

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

4a. NC's white workers have largest share in exposed industries...

Shares of total employment and exposed industry employment by race and ethnicity, 2021 annual average

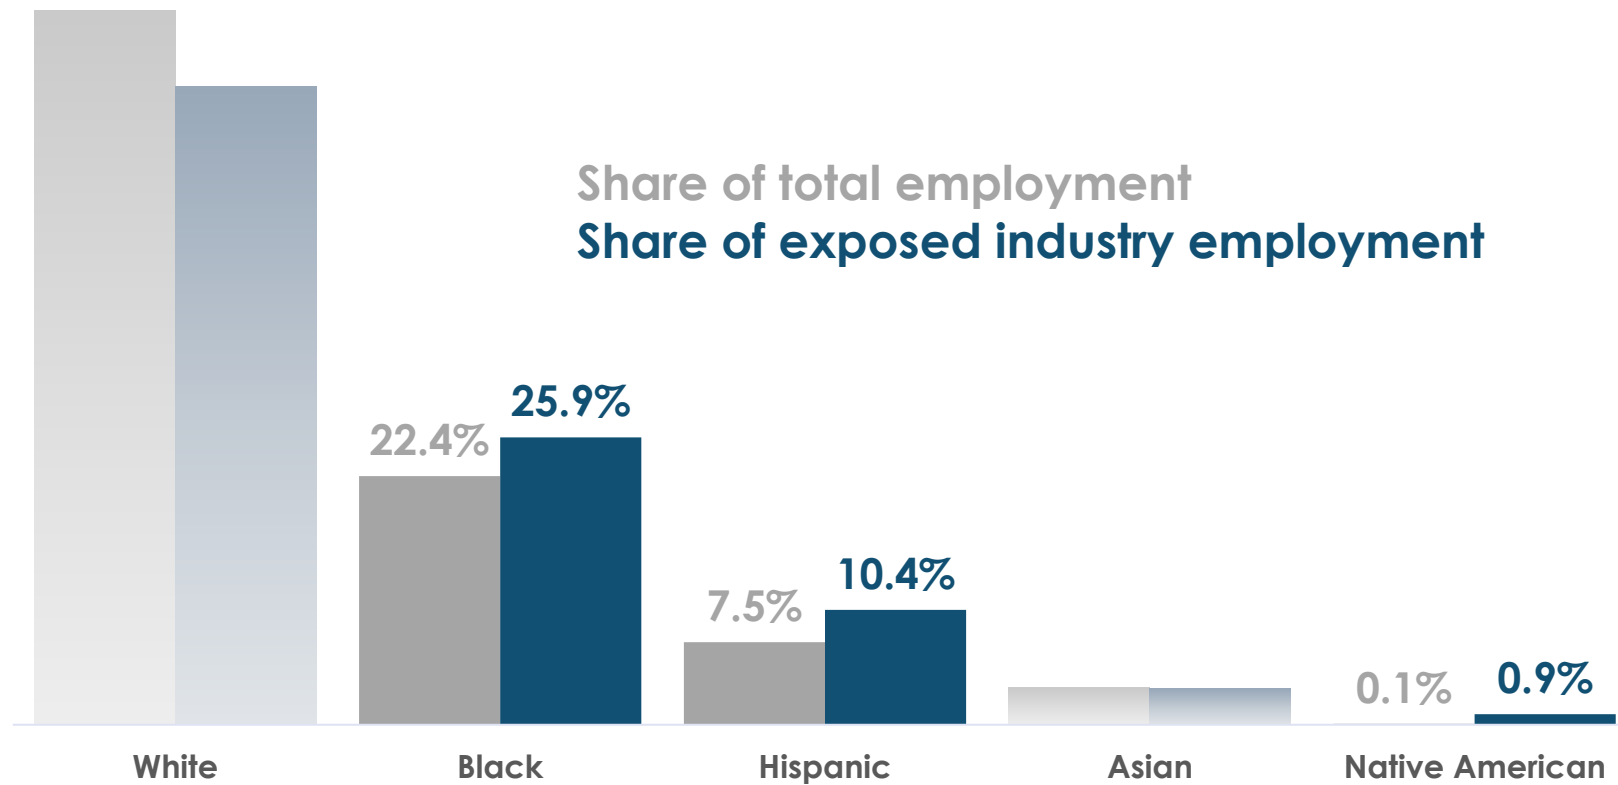

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

4a. ...but workers of color overrepresented

Shares of total employment and exposed industry employment by race and ethnicity, 2021 annual average

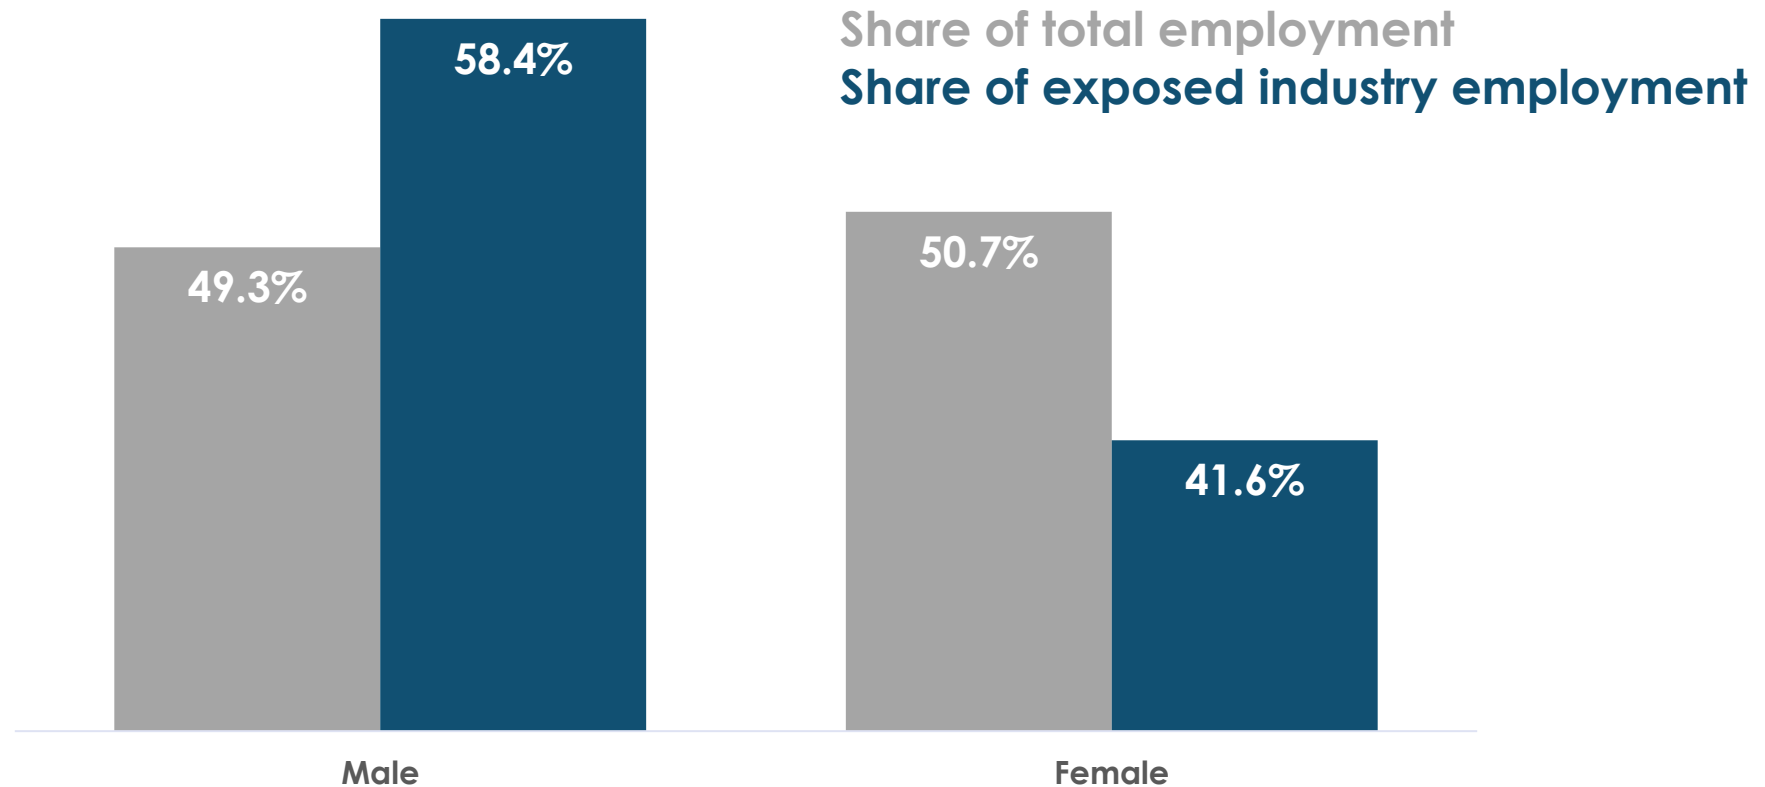

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

4b. Male workers more exposed than female

Shares of total employment and exposed industry employment by sex, 2021 annual average

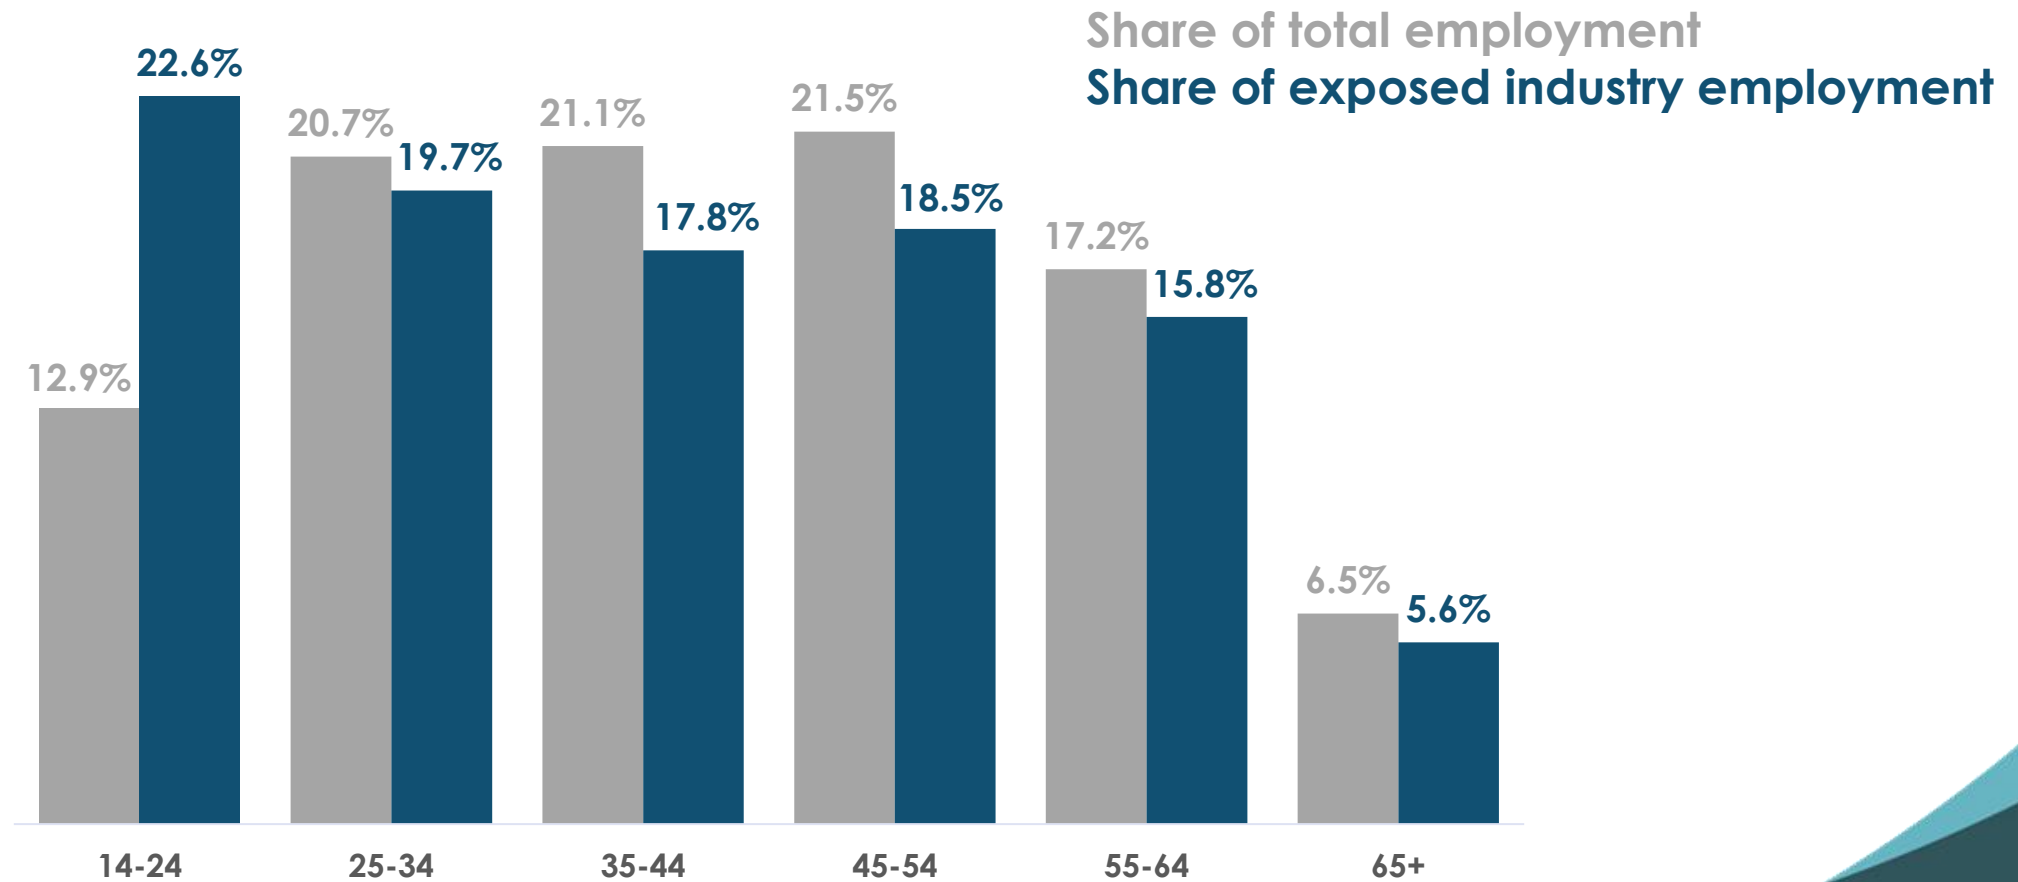

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

4c. Exposure spread relatively evenly across age groups...

Shares of total employment and exposed industry employment by age, 2021 annual average

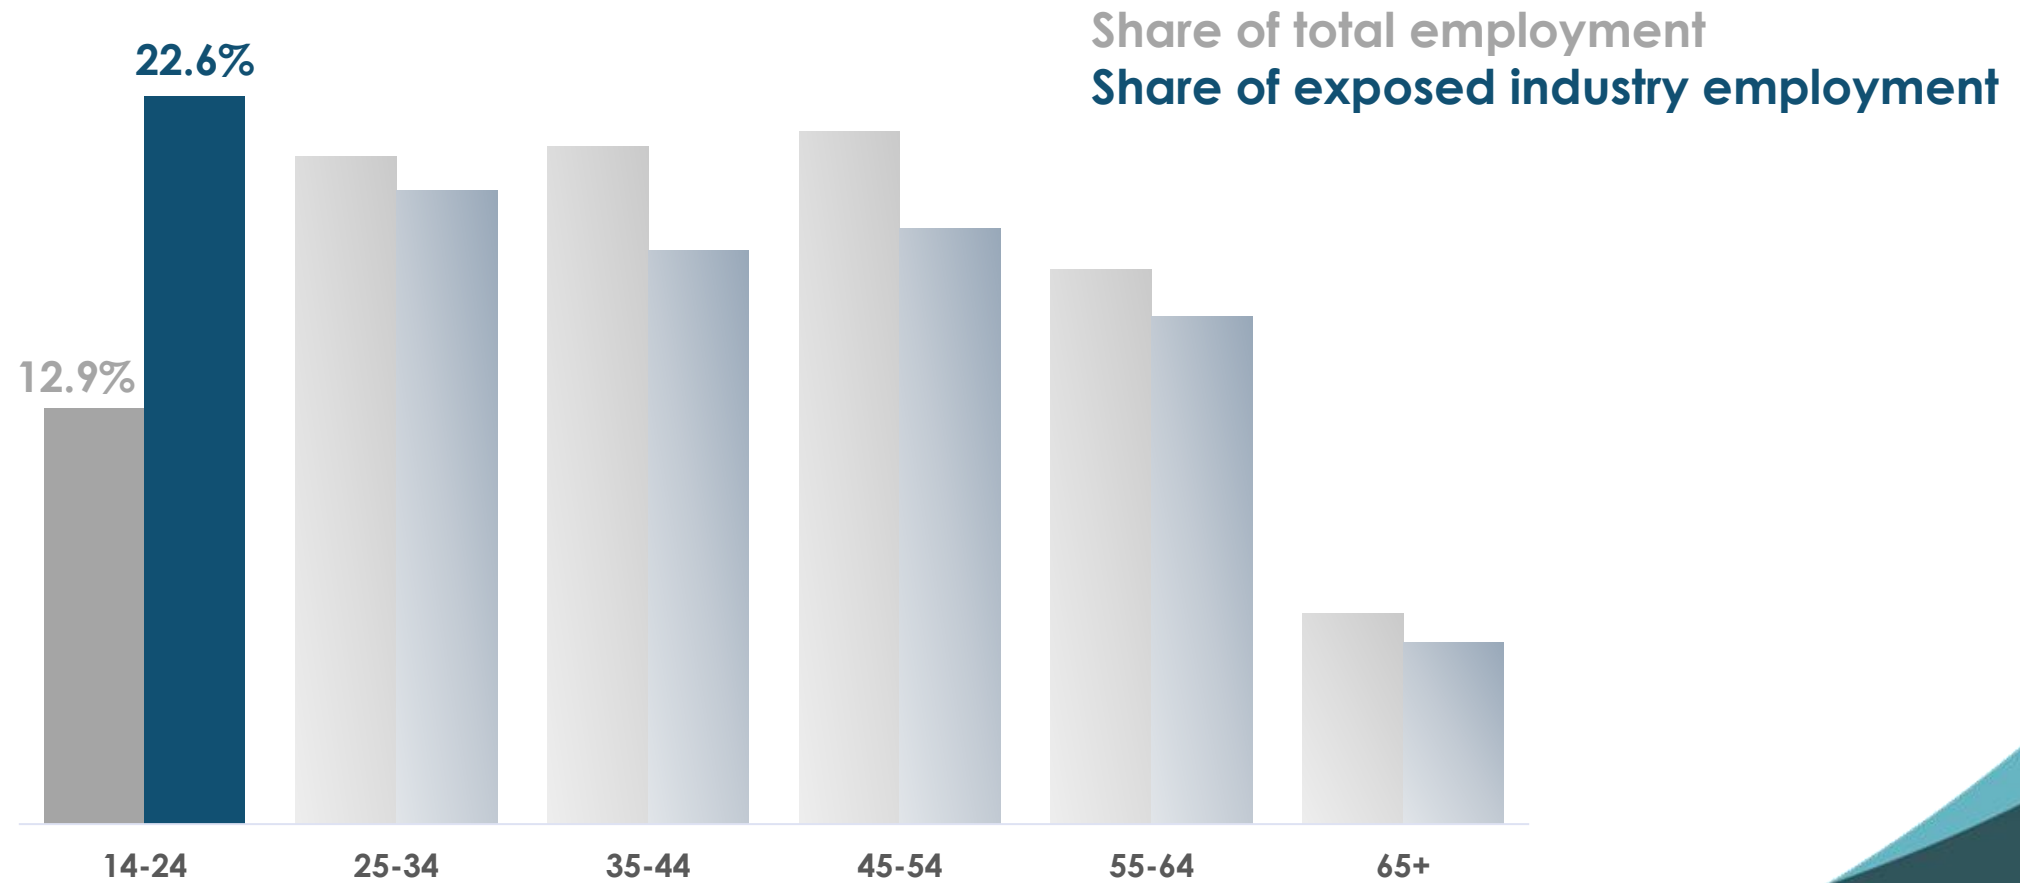

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

4c. ...but young workers notably overrepresented

Shares of total employment and exposed industry employment by age, 2021 annual average

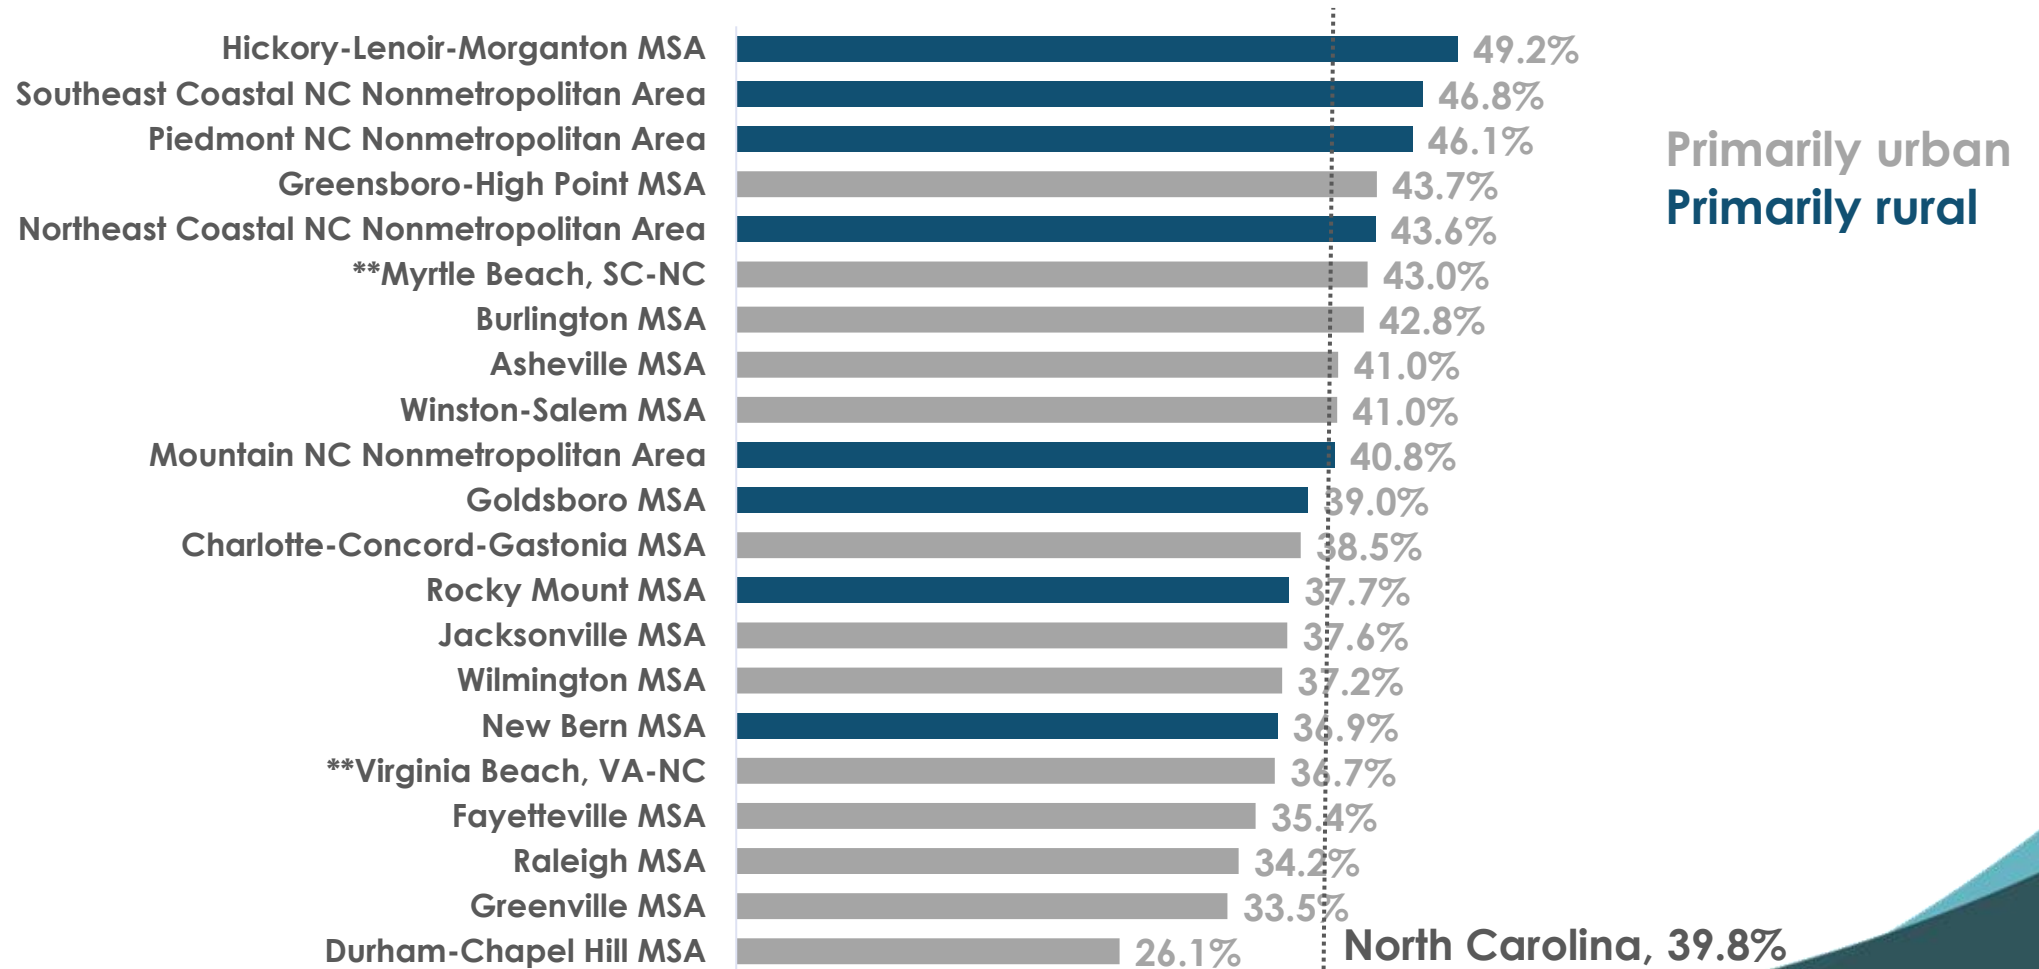

SOURCE: LEAD, NC Commerce
QWI & LMI Institute data

NC DEPARTMENT
of COMMERCE
LABOR & ECONOMIC
ANALYSIS

5. Rural regions face slightly more exposure.....

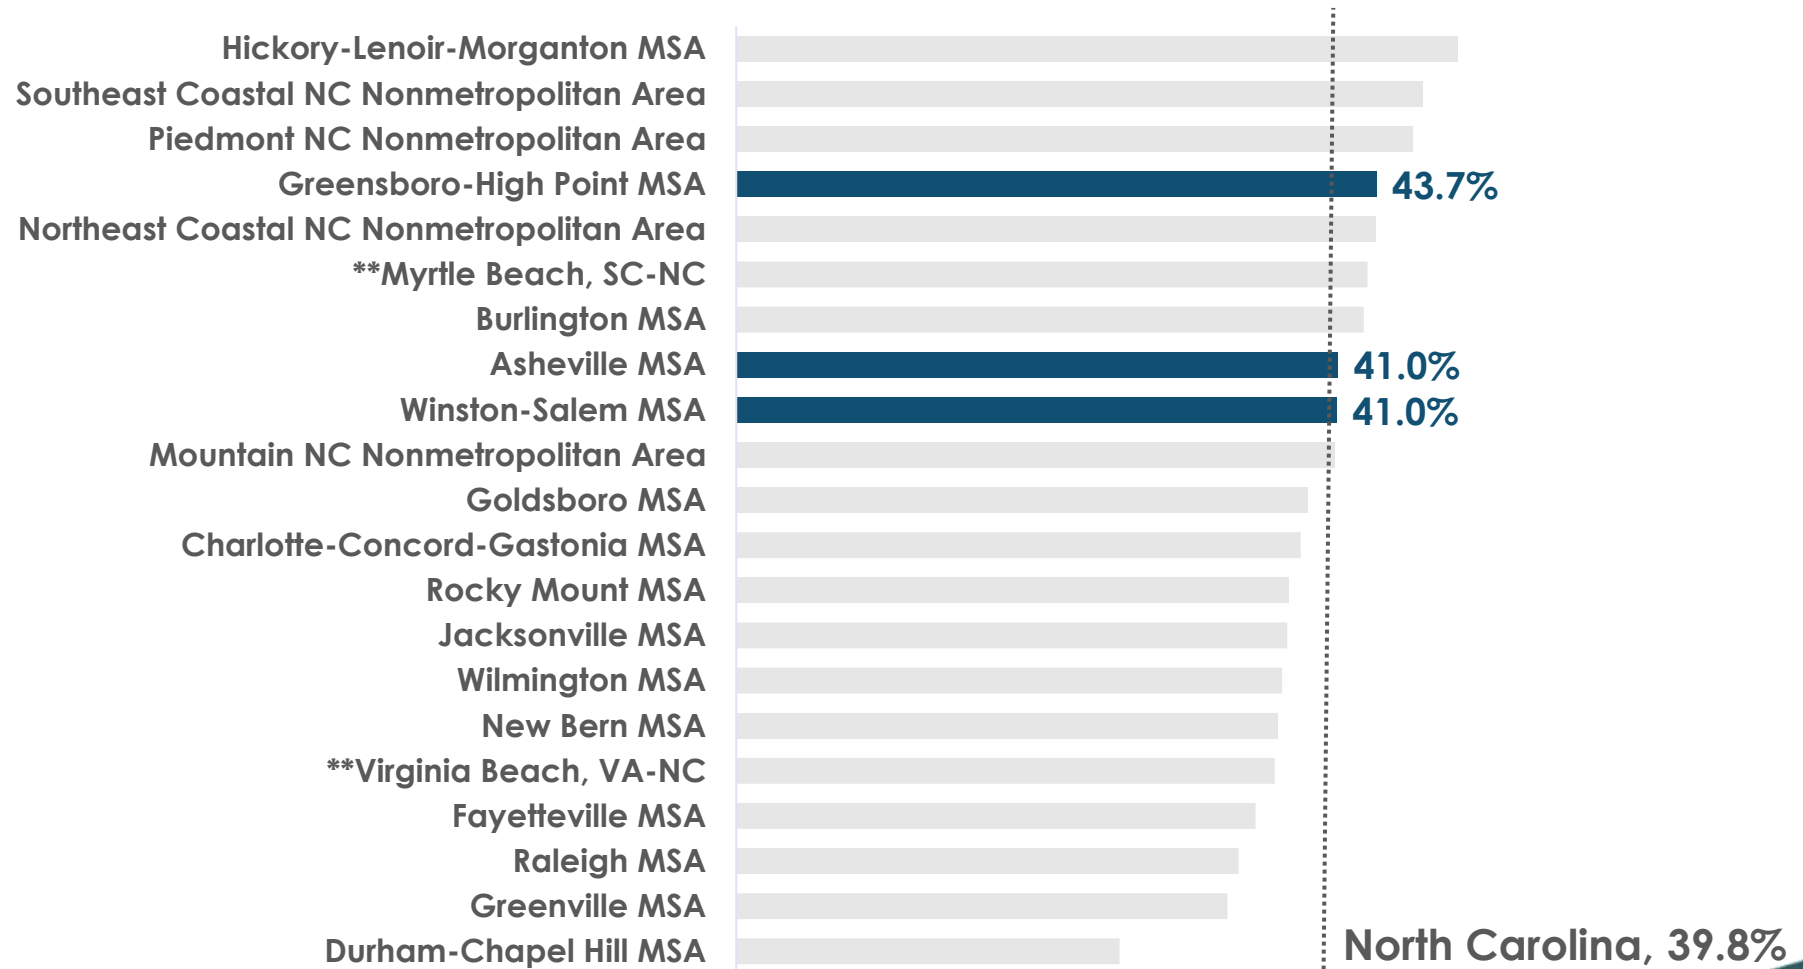

Share of total employment in occupations with high automation exposure by MSA

**Includes primarily non-North Carolina counties

5. ...but some larger MSAs still face high exposure

Share of total employment in occupations with high automation exposure by MSA

**Includes primarily non-North Carolina counties

The missing AI factor?

- Underlying data based on status quo, historical trends
- Might not totally consider exposure of more cognitive jobs
- Recent rapid AI advancements introduce more exposure
- Full labor market impact remains unclear

How to put this research to work?

- Understand which industry workforces likely to change
- Open communication with firms in exposed industries
- Proactive vs reactive?
- Look for ways to assist those in highest exposed occupations

Up next in the series...

- Policy considerations
- Next series: Manufacturing 4.0
- Incorporating into other LEAD products?

Thank you!
